

GEO-ENVIRONMENTAL ENGINEER JOB SPECIFICATION

This is an excellent opportunity to join a Geo-Environmental and Geotechnical Consultancy within a highly regarded, long established, specialist Site Investigation group of companies with offices nationwide.

Sub Surface Consultants Limited is the specialist environmental and geotechnical consultancy for the Sub Surface group and will be looking for an ambitious Geo-Environmental Engineer to join our Consultancy team based at the Head Office in Preston, working on a wide range of projects helping you become Chartered.

The successful candidate would ideally have:

- B.Sc. / M.Sc. in an Environmental related subject.
- Approximately 2 - 7 years experience in contaminated land investigation in the UK.
- A strong technical background in the investigation, remediation and validation of contaminated land.
- Technical Report writing experience of Phase 1, 2, 3 and 4 stages of investigation.
- Knowledge of generic and site specific risk assessments, CLEA and other risk models, groundwater contamination, P20 assessments, landfill gas risk assessments, remediation techniques, soil waste classification, validation, etc.
- Experience and understanding of current UK legislation for contaminated land.
- Some geotechnical knowledge, particularly with regard to foundation assessment, would be ideal.
- Experience of logging soils to BS5930/Eurocode 7.
- Full UK drivers licence.

The main responsibilities of the successful candidate would be:

- Providing geo-environmental expertise and advice to the Group's area offices on a wide range of projects.
- Producing Technical Reports: Phase 1 Desk Studies, Phase 2 Intrusive Geo-Environmental Reports, Phase 3 Remediation Statements, Phase 4 Validation Reports on a wide range of projects.
- Liaising with and providing geo-environmental consultancy advice to Clients.
- Liaison with Contaminated Land Officers, Environment Agency etc.
- Designing investigation and remediation schemes.
- Peer review of external reports.

Sub Surface is a long established, highly respected company within the industry, looking to expand in size and the services they offer and this position would provide an excellent opportunity for them to progress their career.

The main conditions of the employment are: a full time contract, Monday to Friday 8:30am - 5pm (37.5 hours per week) and 24 days holiday per year plus bank holidays.

For full details of our company, see our web site www.subsurface.co.uk.

If you would like to join our team, please email your CV and current salary to jobs@subsurface.co.uk with the job position, Preston Office and your name as the email title.
