

S SUB SURFACE

**Site Investigation Specialists,
Geotechnical & Environmental Consultants**

GRADUATE GEOTECHNICAL / GEOENVIRONMENTAL ENGINEER **JOB SPECIFICATION**

We are a national Site Investigation, Geotechnical and Environmental Consultancy working within the construction industry. We require a Graduate Geotechnical / Geoenvironmental Engineer to assist our Contracts Manager in the organisation and undertaking and running of the site works within the North West.

The main aspects of the job are as follows:

- Assisting the Contracts Manager in setting up, organising and supervising a wide variety of site investigation contracts.
- Excavation of trial pits to assess the ground conditions, expose foundations and services, etc.
- Carrying out in-situ tests: plate bearing, CBR, soakaways, permeability tests etc.
- Monitoring and sampling of standpipes for groundwater and landfill gas.
- Liaising with sub-contractors and Clients on site.
- Logging samples (soil and rock) in accordance with British Standards and Eurocode 7.
- Previous experience is preferable but full training will be given.

We are a friendly family run group of companies with offices throughout the country. The position is based in the North West at our head office in Preston, Lancashire, which provides a pleasant working environment and free parking. Our other offices are located in Ossett, West Yorkshire; Tipton, West Midlands and High Wycombe, Buckinghamshire.

The position would suit a confident person with a B.Sc. / M.Sc. in a Geotechnical related subject, who is able to work on their own initiative, communicate effectively with Clients and sub-contractors and is not afraid to get their hands dirty. It is essential that the applicant has a full driving licence (preferably clean).

The main conditions of the employment are:

- Full time contract
- Monday to Friday (very occasional weekend work will be required).
- 37.5 hrs per week (early starts may be required to get to site for 8am)
- 24 days holiday per year plus bank holidays
- Company vehicle provided

For full details of our company, see our web site www.subsurface.co.uk.

If you would like to join our team, please email your CV and current salary to jobs@subsurface.co.uk with the job position and your name as the email title.
