

## **GEOTECHNICAL / GEOENVIRONMENTAL ENGINEER**

### **JOB SPECIFICATION**

We are a national, long established (50 years) Site Investigation, Geotechnical and Environmental Consultancy working within the construction industry, based in Preston. Due to our increasing workload, we require a Geotechnical / Geo-environmental Engineer (0 - 2 years experience) to assist and write technical reports and carry out site works.

The main aspects of the job are as follows:

- Logging soil strata and rock cores to BS5930 and Eurocode 7.
- Drafting and checking borehole record sheets.
- Producing Technical Reports: Phase 1 Desk Studies, Phase 2 Intrusive Geotechnical and Environmental Reports, Phase 3 Remediation Statements, Phase 4 Validation Reports on a wide range of projects.
- Assisting the Contracts Manager in setting up, organising and supervising a wide variety of site investigation contracts.
- Excavation of trial pits to assess the ground conditions, expose foundations and services, etc.
- Carrying out in-situ tests: plate bearing, CBR, soakaways, permeability tests etc.
- Assisting the Principal and Senior Engineers in the production of geotechnical and environmental reports.

We are a friendly family run group of companies with offices throughout the country. The position is based in the North West at our head office in Preston, Lancashire, which provides a pleasant working environment and free parking. Our other offices are located in Ossett, West Yorkshire; Tipton, West Midlands and High Wycombe, Buckinghamshire.

The position would suit a confident person with a B.Sc. / M.Sc. in a Geotechnical related subject, who is able to work on their own initiative, communicate effectively with Clients and sub-contractors and is not afraid to get their hands dirty. It is essential that the applicant has a full driving licence (preferably clean).

The main conditions of the employment are:

- Full time contract
- Monday to Friday
- 37.5 hrs per week (some early starts will be necessary to get to site for 8am when on site)
- 24 days holiday per year plus bank holidays
- Company POOL vehicle provided

For full details of our company, see our website [www.subsurface.co.uk](http://www.subsurface.co.uk).

If you would like to join our team, please email your CV and current salary to [jobs@subsurface.co.uk](mailto:jobs@subsurface.co.uk) with the job position and your name as the email title.
