

GEOTECHNICAL / GEO-ENVIRONMENTAL CONSULTANT JOB SPECIFICATION

This is an excellent opportunity to join a Geotechnical and Geo-Environmental Consultancy within a highly regarded, long established (51 years), specialist Site Investigation group of companies with offices nationwide.

Sub Surface are looking for an ambitious Geotechnical / Geo-Environmental Consultant to join our Consultancy team based at the Head Office in Preston working on a wide range of projects.

We are very flexible and are happy to consider all levels of experience from one year to through to Principals for the role. Since you can always teach skills, the most important characteristics for Sub Surface are having the right attitude, work ethic, drive, and the willingness to learn.

This is an ideal opportunity for someone looking to take their career to the next level by being a valued member of the team and having a say in the progress and development of the team and Sub Surface.

The successful candidate must have B.Sc. / M.Sc. in a Geotechnical / Environmental related subject, a full UK drivers licence and have the ambition of becoming Chartered or already be Chartered.

Your title (Graduate, Senior, Principal, etc.) will be determined based on your knowledge and experience.

The main responsibilities of the successful candidate would be:

- Writing Phase 1 Desk Study Reports, Phase 2 Ground Investigations Reports (foundations, retaining structures, coal mining risk assessments, earthworks, roads, slope stability, contamination analysis, GQRA, DQRAs, waste classification, ground gas risk assessments, etc.), Phase 3 Remediation Statements and Phase 4 Validation Reports on a wide range of projects.
- Logging soil strata and rock cores to BS5930 and Eurocode 7.
- Occasional site works when required.
- Assist with business and continuing professional development of all aspects of the company, its employee's and technical services and reports.
- Liaison with Clients, Planning Officers, Contaminated Land Officers, Environment Agency, etc.
- The designing of investigations for remediation schemes followed by validation.
- Mentoring and overseeing junior staff. (Senior, Principals roles)
- Providing geotechnical and geo-environmental technical expertise and advice to the Group's area offices and Clients on a wide range of projects. (Senior, Principals roles)
- Checking of reports (Principals only)

For the past five years, Sub Surface have been progressing through a substantial phase of growth and have big ambitions for the future. We are looking to grow the size of the company and expand on the services we offer here at Sub Surface. Therefore, this position would provide an excellent opportunity for you to be at the forefront of the growth of the business.

The main conditions of the employment are:

- Full time contract (Office Based)
- Monday to Friday 8:30am - 5pm (37.5 hours per week)
- 24 days holiday per year plus bank holidays.
